FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Social Services** assume the proposed legislation would have no fiscal impact on their agency.

Officials from the **Office of State Courts Administrator** assume the proposed legislation would have no fiscal impact on the courts.

Officials from the **Office of Attorney General** assume costs are unknown but would likely require additional staff to identify and inform community groups and other groups of their rights in drug related prosecutions.

Oversight assumes the AGO could absorb the cost of identifying and informing community groups and other groups of their rights in drug related prosecutions. If the AGO experiences costs that would justify additional FTE, the AGO could request funding through the appropriation process.

Officials from the **Department of Corrections (DOC)** assume this bill would allow for neighborhood groups, community groups, and social services agencies to request to be notified of information on an offender's release for any reason which includes parole, death, commutation, pardon, escape, and recapture. It also allows these groups/agency to attend sentence hearings and present an impact statement for cases involving a felony controlled substance offense.

The DOC Victim's Services Unit would be required to provide notification to these groups for the above-noted events. The volume of requests (and resulting notification procedure) is unknown. It is possible that additional staff would be required to provide scheduling and group coordination for attending parole hearings as well as perform the required victims' notification services.

In summary, the fiscal impact for the DOC is an unknown amount.

Oversight assumes the DOC could absorb the cost of crime victim notification. If the DOC experiences costs that would justify additional FTE, the DOC could request funding through the appropriation process.

FISCAL IMPACT - Small Business

The proposed legislation could have a fiscal impact on small business.

DESCRIPTION

The proposed legislation would allow neighborhood groups, community groups, and local social service agencies to have a representative present at sentencing hearings for felony drug offenses. The representative would have the right to present a community impact statement about the effect of the drug offense on the community. The representative would have the ability to make recommendations about sentencing, including community service.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space. This legislation would not affect Total State Revenue.
